Press Note.

Prices of cloth produced by manufacturers who do not spin any yarn have hither to not been controlled. It has now been decided that in cases where such manufacturers possessed less than 25 power looms on the 1st January 1944 and still possess less than that figure, this exemption should continue, but that in those cases where they possessed 25 power looms or more the exemption should be discontinued from the 1st May 1944. All such owners will, therefore, have to stamp prices on their cloth from that date and they should, therefore submit full-width samples with full manufacturing particulars to their Panel Members by the 15th March at the latest, if this has not already been done. Any one who had 25 or more power looms on the 1st of January and does not submit full information by the 15th March will be liable to have his Texmark cancelled.
